

PLACER SURVEY SUMMARY: WHAT WOULD YOU FUND? FINAL RESULTS

Modified Sample Size = 389; Margin of error = 4.96%

If the choice was yours, what would you fund?

Every county receives federal dollars to help older adults stay independent for as long as possible. The services funded with these dollars are provided to eligible people at no cost to them.

Our job is to decide what types of services to fund.

Agency on Aging \ Area 4 **COULD** fund any of the services in the table below; however, federal, state and local funding is limited, so we **CANNOT** fund them all.

Which of the following services do you think should or should not be funded in your city/town?
